Edinburgh Law School

The International Legitimacy Series presents

# Norms as the Objects of International Legitimacy

Professor Antje Wiener, University of Hamburg and  
University of Cambridge

20th April 2018

Balcony Room, Old Moray House

15.00 to 18.00

The international Legitimacy project is an interdisciplinary project examining various dimensions of legitimacy beyond the state. The project identifies three dimensions of international legitimacy: its objects - the targets of international legitimacy, its subjects - the constituencies of international legitimacy, and its grounds - the reasons for international legitimacy; and will host a number of high-profile showcase seminars based on each of these dimensions in 2018 and 2019.

This event is free, open to all, no registration is required.
